The responses of our brethren in China to the Open Letter have exposed the great conspiracy and confederacy aimed to destroy the churches in China. Because of their pride and personal agendas, Chia and Lim, refused to humble themselves and submit to the application of the Law. Ultimately, they have fallen prey to the Antichrist spirit. They have committed the worst kind of treachery. It is sad to see that these two men have, through the Open Letter, wickedly led many astray and turned them against pastor. May God curse them for their wickedness and speedily hear pastor's imprecation against them.

As for the 5 points in their letter, which form their basis for separation, they are 5 points of nonsense. Chia and Lim are just conveyors of pastor's messages. What angers me is that after receiving these spiritual things from pastor, they used it to attack him. In this light, I appreciate the title of this Special Edition 'Refutations By Our Brethren In China Against The Allegations And Cavils Of The Church Of Judas Iscariot'. How easily they say that the *New Jerusalem Times* is a platform to brainwash people in the churches. This point clearly exposes the Chinese culture and mentality which pastor has been exposing for years—that they are good in memorization, but have poor and substandard analytical and reading skills. It also shows that these people, though being somewhat familiar with Reformed doctrines, are yet very much under the bondage of the Chinese culture. I want to re-affirm that NJT is very rich in Biblical Doctrines and Pastoral Theology. Moreover, it is a testimony of the effects of thy preaching in the 127 provinces and of thy worldwide ministry. Anyway, they might have added their own twist to fulfil their wicked agenda. How wickedly they are playing with words that '*pastor is bringing souls to himself and there is no anointing in the last days*'. If not for thee, would they have received the truth in such great light? Also what Gospel could Chia and Lim bring to China without thy teaching? What kind of spiritual sons these two persons are, going around defaming the name and character of their spiritual father? It is as though thou have reared two snakes for 20 to 30 years. When the time came, they bit the hands that have fed them all these years. I agree with the China brethren that in doing all these wickedness, they have blasphemed the Holy Spirit. There may no more be any forgiveness of sins for them. This is the scary part. The whole event has caused me to make a few reflections: (1) The need to constantly acknowledge the source of our blessings. Because of our depravity, the chance of us becoming ungrateful is very high. (2) The need to submit to the Law by the grace of God. Chia, being firmly grounded in the Biblical doctrines taught by pastor and has gone around teaching them to many, yet now is being blinded by the Antichrist spirit. The chief reason is that he could not submit to the application of the Law because of his pride. I fear; I am in much need of God's grace. (3) The need to seriously seek for the salvation of our soul.

Thank God for this session. I have not read the letter until now. When I read it, I felt it was so defiling. I agree with Kadmiel, anyone who has common sense will know who is causing the schism. I see how the brethren were objective, as they pointed out what is the spirit in the enemy's camp and spoke of the clarity of the doctrines that pastor gave to them. Haziel saw the debacle as strengthening so that they learn how to fight. I was edified as I read the China brethren who responded to the open letter as they spoke uprightly and clearly, proffering a basis for what they are saying. Thank God for what Ruby said that it was pastor who gave light and clarity and that she had tasted it personally. Also, Kadmiel revealed a lot of things because he was following Lim and Chia in China. He said that his son followed and said he wants to be a pastor because you can eat well and live well. They did not bring him to delight in the Word. Another revealing thing is that they went around buying sheep farms and houses when they are supposed to be preaching. Thank God for Jasper who traced chronologically as to how Jeshar was gradually evil affected by the enemies. It all began when Lim attacked pastor's life and affected others. I was with Lim in this past August in China as I visited him during my business trip and he presented himself very well before me. Lim said that he was blessed by 19 August New Jerusalem Times concerning Haziel Qi. He is a snake because by then, he had already began scheming. How can he become so wicked being one who was taken into confidence and now uses it to attack pastor? He is more wicked than Chia. The surprise is Jair who spoke plainly and against his father. He could affirm where he received the doctrines that can save his soul. The rest of the China brethren also listed the doctrines they have received and also the deliverance from falsehood. But the enemies did not say how they got to know the truth. Our brethren are clear and upright and stated doctrinally where they are ministered. Praise and bless God for these brethren and curse the wicked.
