| "Next day, early in the morning, the students gathered. Esther Yeoh conveyed a message from the Song of Degrees. From Psalms 120-134. She highlighted the journey of a pilgrimage and that the life of a pilgrim is a very difficult journey. We need the grace of God in our spiritual journey and that we are not alone in our spiritual journey. This spiritual journey is one of maturing and comprehending the depth of our depravity as well as experimentally knowing who God is to us deeply. The students and teachers alike were very attentive and enjoyed the session commenting that they were very enlightened and could now see these psalms in a much deeper way. Many of the students are from heathen background. Pray that they will be convicted by the doctrines of the man of God. It is much safer for them to stay in the boarding school rather than to go back to their homes, because the teachers not only teach them secular education, but also nourish them with the Word of God. It is beautiful to hear the psalms being sung loudly every morning in the school at 6am!"
