Dear presiding pastor,

Greetings in the Name of Christ! I have come under your ministry for six years. This is my first time writing to you. I have never expected that my first letter is to be written under such circumstances. I have never thought that things would turn out to be what it is today! Thank God for plucking me out as a brand out of fire. I am almost gone but God preserves me by His mercy. God did not give me up and let me continue in my delusion and hardness of heart. I want to thank Zephaniah Soh for his missive concerning the Elijah that shall come in the last days (Malachi 4). His explanations are very clear and spoke much to me. I was awakened to consider the 9 Bible Conferences that I had attended in the past 6 years to hear direct preaching from pastor, how I was ministered by the Holy Spirit and loaded with spiritual blessings. I especially saw the relevance of pastor's messages on eschatology which he preached in Naigaon conference. Pastor showed us from Revelation 20:3 that Satan has been let loose a little season, and that he works together with the Antichrist and the False Prophet to attack the Church of God. If the foundations be destroyed, what can the righteous do? (Psalm 11: 3) If I were to believe in the evil sayings of the adversaries and condemn pastor as heretic, then all that we have learned in the past 6 years would amount to nothing; then we are back to the darkness that we came out from! Indeed Satan has succeeded in his conspiracy to destroy the Church. He has successfully caused many to depart from pastor's ministry. Now the churches in China are fallen apart and cast into deep confusion. When I saw the consequences that they have reaped, I feel very fearful and painful. This is not what I want to see! I myself had unconsciously become an instrument used by Satan. I had followed Chia and Lim to various churches and spreading rumours about pastor to slander him. Many people are deceived because they trust Chia and Lim. I had become the accomplice and cohort of the wicked. Chia and Lim have forgotten that the trust and respect that the China brethren conferred upon them are because of the pure doctrines of pastor which they used to convey. Now I see that they have betrayed our trust and love!

Thank God for the Spirit of God Who awakened me even at the last minute to restore my soundness. When I consider how I am blessed under your ministry, please accept my profound apology. I deeply regret my sins of apostasy! When I learned that you still welcome me to attend the China conference despite of what I did to you, I am very touched. I feel relieved that I am still accepted by you and I want to repent thoroughly. May God grant me a humble and teachable heart, and through your strong preaching, I may be rid of all the baneful

influences and defilements. May the precious blood of Christ cover me, cleanse me and wash away all my sins.

When I received the Open Letters from the various churches and individuals to declare their separation from pastor, I see that all of them have been deceived. May God have mercy upon them. The contents of these Open Letters came from Chia and Lim. The most lethal part is that Chia persuaded the people that there is no second Elias and he caused them to doubt your anointing. Many are deceived.

Through the rebuttal missives written by the international brethren, the arguments Chia brought forth are torn to smithereens. If Chia is of God, then his “doctrines” will not fall, but stand, but it is not so! Through the rebuttal letters, the arguments of Chia are overturned. Jude 3 says that we should contend earnestly for the faith that was once delivered unto the saints. If Chia thinks that he is right, he should stand up for the truth and confront pastor directly and make his stand clear. He should not hide in the shadow and use the mouths of others to attack. I think he does that because he does not have the truth. Although I have come under pastor’s ministry for a period of time, in reality I am still a babe in the understanding of the doctrines. I have never experienced such ferocious and cruel spiritual battle! The debacle had caused me much pain, anxiety and struggles. I want to thank my wife Jasper who made a clear stand and did not condone my errors. She had cried much to God and interceded for me. She has been showing me the rebuttal letters of the spiritual brethren. Through these letters I see my own sins and I want to repent.

I am especially thankful for pastor’s prayers for me and that he did not give up on me! He receives me like a father who forgives his son. As of now, I see that many of my brethren whom I am well acquainted with are still deceived. Therefore, I hope by the mercy and power of God, I can reach out to them! Pastor, please pray for me. I would also appreciate your advice on this matter.

Unworthy sinner,
